

North Sea Maritime's Alubat Newsletter May 2007

OPEN WEEK

29th May to 1st June

This year our Open Week takes place at the end of May. Fantastic opportunity to see the boats in build and the finished article all in the same place - the factory at Les Sables d'Olonne. Please phone us for details of the models in build and those available to test.

435 & 395 at Southampton, 365 at Hythe

We will be displaying two models at the show for the first time, a 3 cabin 435 and 2 cabin 395, which with a 365 just across the water at Hythe, covers the main models in the Ovni range. One stop Ovni shopping at last! Look out for 395 'Zephyr's' stern & 'Vagabond Spirit' (435) - unrecognisable vs. the picture below!

495 - Update
Work continues on the 1st 495 soon to be in interior fit-out. Photos are available.

Revamped Alubat website now on-line. See www.Alubat.com

Cigale News - We promised an update on the Cigales - there's a 14m being launched in the 3rd week of May which will stay in Les Sables until mid-June. For those interested in a 16m - there's a chance to see one in late July. If you're not familiar with them we have a review from PBO we can send to you. This internal shot is looking aft - a 'master & commander' type saloon is a feature, as is the keel and water ballast.

PRICE & DELIVERY NEWS: December 06 saw a small increase in price in the larger models in the range, reflecting the rises in aluminium over the past couple of years which Alubat suppressed for some time. The 365 and 395 remain the same. Deliveries from spring 08 onwards..

PRICES: We sell in Euros with a Sterling price only fixed at the time of the first payment if requested.
