

North Sea Maritime's Rhéa Newsletter

London Excel Boatshow 2006

We will be displaying a Rhéa 750 (left) and a Rhéa 650 (right) on the Inland Waterways Feature, N1960 and 1976, both of which are for sale.

Rhéa Marine

Based in France, at La Rochelle, Rhéa, founded in 1996, currently build around 65 boats a year. All boats are built to order, are available in a number of hull colours, and are fitted with mainly Nanni, Yanmar or Volvo engines.

Deliveries - There are 1 x 650, 3 x 750 and 1 x 850 destined for the UK in 2006. If you want a boat for the 06 season let us know soon!

Open or Closed? The 'Open' in some of the model names refers to the aft open cockpit whereas the others are all Wheelhouse models with high bulwarks and walk-around decks..

The New Rhéa 850 Wheelhouse - available in single or twin engine option.

Sea Trials - We wouldn't expect you to buy a Rhéa without trying it but not all models are in the UK. So, for a £250 non-refundable deposit we will fly two people to La Rochelle from London Stansted, including one night's B&B, which allows you to try the boat and see a bit of La Rochelle. This is a two day trip and if you confirm before the end of March we will offset your £250 & another £250 off extras.

FISHING & CRUISING IN 1ST CLASS

Safety & comfort, smooth ride, great handling, walkaround decks and deep cockpit are the key to Rhéa's success.

RHEA RANGE			
650	750	750 OPEN	850*
900	1100	1100 Trawler	850 OPEN*
