Builder: K&M Yachtbuilders
Design: Van de Stadt Design
Type: Stadtship 56

Principal dimensions

Length overall:	17.10 m / 56.10 feet
Length waterline:	16.00 m / 52.49 feet
Beam:	5.05 m / 16.57 feet
Draft:	0.80 - 3.15 m / 2.62 - 10.33 feet
Displacement:	24 tons
Ballast:	8.50 tons
Water ballast:	2.40 tons
Sail area windward:	167.5 m ²
Sail area running:	298 m ² (incl. spinnaker)
Engine:	100 HP / 74 kW
Power system:	24 V / 220 V
Water/diesel:	1100 l / 1500 l
Grey-/black water:	350 l / 325 l
Construction:	Aluminium
Optional:	Lift keel, tiller steering, carbon mast, Hoyt boom, Park Avenue boom, third rudder, bow thruster, water ballast tanks, central heating, sail control lines below deck
Starting price:	€ 1.050.000,00 (ex. VAT)

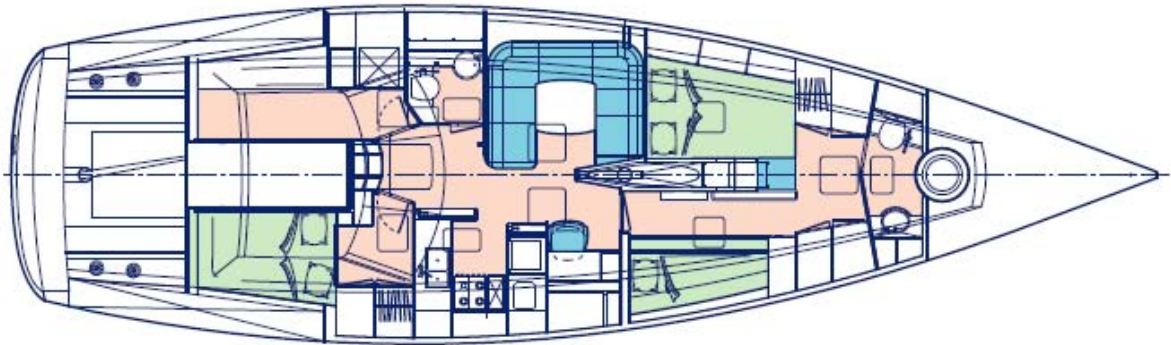

The Stadtship 'Oester' is a practical ocean cruiser, designed by Van de Stadt Design with a lot of input by the yard and the experienced owner, who is an engineer. The 'Oester' features a lift keel and two lifting rudders. This allows the owner and his crew to safely cross oceans, without being excluded from visiting estuaries and other shallow waters of just 80 cm deep. Drying out is a simple and safe activity with this yacht.

The deck layout is designed for ease of handling by a short-handed crew. The sails can be set from the cockpit. The Hoyt Jib Boom allows the owner to tack without effort and without losing speed. The owner had high demands regarding functionality, which is notable throughout the yacht. A few examples: An integrated step to get on board easily from a low pontoon. A third rudder behind the propeller to enhance maneuverability in narrow harbors. A practical way to stow away the dinghy, etc.
